

Université de Bretagne Occidentale

# A MULTIDISCIPLINARY SEASIDE UNIVERSITY open to the world

 <b>22188</b> Students	 <b>510</b> PhD students	 <b>32</b> Research units
 <b>253</b> Training courses Undergraduate > Phd	 <b>688</b> Researchers	 <b>12<sup>th</sup></b> Shanghai ranking Oceanography-2018

**Alliance SEA-EU** 

The European University of the Seas

## 5 main fields

- Marine and Coastal Sciences
- Human and Social Sciences
- Arts, Literature, Languages
- Law, Economics, Management
- Science, Technology and Health

 **ISblue**

An interdisciplinary graduate School for the blue planet

# University Institute of Marine Studies

@Erwan Amice / CNRS

## 3 missions

RESEARCH  
TRAINING  
OBSERVATION

**270**

MSc students

**200**

PhD students

**530**

Researchers,  
technicians and  
administrative

Multidisciplinary joint  
research units with CNRS,  
ifremer

- law & economy
- biotechnology
- geography
- history
- marine biology
- ecology, physics
- chemistry
- geosciences.

## A recent national outcome :

“CLIMArcTIC: From regional to global impacts of climate change in the Arctic: an interdisciplinary perspective” - 2.5 M€ project

1 of 6 projects selected at national level  
Ocean and Climate National Priority Program

## Polar research

A polar multi lab working group of 60 researchers involved in polar and subpolar studies

- master internship programs
- networking
- international mobility
- workshops
