

## **WORKSHOPS**

### **1→ OCEAN GOVERNANCE RESPONDING TO CHANGE / Strengthening the tools of governance of the Ocean**

A more integrated, interdisciplinary, and cross-sectoral approach to global ocean governance is needed to effectively address its challenges.

*Wednesday 9<sup>th</sup> February, 9:00 – 10:30*

### **2→ SUSTAINABLE TOURISM IN THE BLUE ECONOMY / Blue Tourism supporting conservation**

How can the tourism sector, one of the largest economies in the Ocean affairs by 2030, become part of the blue economy and thus support ocean conservation?

*Mercredi 9 février, 11h – 12h30*

### **3→ POLAR OCEAN / Polar Ocean: a central role in the global climate and ocean system**

From the Arctic Ocean to the Antarctic, the climate alert is carried by scientists who remind us that the poles and oceans are both the first victims and the major actors of profound changes in the planet's ecosystems.

*Wednesday 9<sup>th</sup> February, 14:00 – 15:30*

### **4→ WHAT & WHOM TO PROTECT? What to protect and for whom? Conservation and sustainable development**

Appropriate levels of protection in all ocean basins are essential to protect the ocean and its biodiversity to support human livelihoods. How can we protect 30% of the oceans by 2030?

*Wednesday 9<sup>th</sup> February, 16:00 – 17:30*

### **5→ THE MEDITERRANEAN SEA IN 2030 / Environment and Development**

The Mediterranean is a common good for all those who share it. Protecting and restoring the health of this emblematic regional sea means rebuilding together a more ecological blue economy.

*Wednesday 9<sup>th</sup> February, 18:00 – 19:30*

### **6→ THE SCIENCE WE NEED FOR THE OCEAN WE WANT / The ocean science and research needed for marine innovation**

The Decade of Ocean Sciences (UNESCO-IOC) provides a unique opportunity for nations to work together to produce the global oceanographic research needed for innovation in marine technology.

*Wednesday 9<sup>th</sup> February, 9:00 – 10:30*

### **7→ OCEAN THE PROVIDER IN 2030 / Nutrition, health, marine energies**

The ocean is a space of solutions. How can we feed ourselves, treat ourselves, and produce new energies with the sea?

*Thursday 10<sup>th</sup> February, 11:00 – 12:30*

### **8→ INVEST IN BLUE / Blue Finance for the Ocean**

How to create innovative financial products and secure investments based on the Ocean's natural solutions?

*Thursday 10<sup>th</sup> February, 14:00 – 15:30*

### **9→ EDUCATE TO THE SEA, OCEAN FOR YOUTH / Global marine education and youth engagement**

How to create and promote educational tools and programs to raise awareness about ocean preservation?

*Thursday 10<sup>th</sup> February, 16:00 – 17:30*

### **10→ A EUROPE OF THE OCEAN / Which Europe for the Sea?**

At a time when the French presidency of the EU is opening new areas of work, including an ecological ambition with carbon neutrality for 2050, how could Europe, the world's largest maritime area, become an exemplary player?

*Thursday 10<sup>th</sup> February, 18:00 – 19:30*
